

Dimensions of Trafficking Impact on the Communities

- Health (i.e. reproductive health, general practice, mental health, HIV/AIDS, psychological)
- Changes in some cultural perceptions, deepening old and developing new stereotypes, sometimes - alienation of the victims and marginalization of their families.
- Discrimination of the STD ill women. The stigma of the whore.
- Social (livelihoods, education, labour & employment, marriage, divorce, birth rate)
- Economic (absenteeism, national accounts, money laundering)
- Governance (legal reform, human rights, local governance against human trafficking)
-
